Dear whom it may concern at 1000 Crane Club,

We are a class of 20 students from Sweden. We are 11-13 years old and our school is called Johannesbäcksskolan.

We have read about Saduko and her life story. We are greatly sorry about what happened to her, and a lot of others in Japan because of the atomic bomb.

We hereby want to contribute to the collection of paper cranes to honor her and Japan.

We also made a song of your peace wish/poem. We would be happy if you wanted to look at it at our webpage:

"This is our cry, This is our prayer, Peace in the world" in Swedish

We are grateful for been able to hear about Saduko's and Japans's destiny, and we learned a lot.

We are curious about how many paper cranes you have at the moment?

Love from,
